

**DELIVERS CONTROL,
CHOICE AND FLEXIBILITY**

PRODUCT FLYER

**PROGNOSIS FOR
ACI MONEY
TRANSFER SYSTEM™**

With nearly three quarters of a quadrillion dollars sent through high-value wire transfers in 2013 in the U.S. alone, the efficient and effective operation of wholesale payment environments is critical. Yet while

- **REAL-TIME BUSINESS INSIGHT, PERFORMANCE AND AVAILABILITY MONITORING OF ACI MONEY TRANSFER SYSTEM™**
- **IN-DEPTH MONITORING OF ALL CRITICAL COMPONENTS OF MONEY TRANSFER SYSTEM**
- **GRAPHICAL, CONFIGURABLE VIEWS INTO YOUR WHOLESALE PAYMENTS OPERATIONS**

these systems need to be rock solid, the increasingly competitive banking environment demands increased efficiency and reduced processing costs.

MERGING TOGETHER PRODUCTIVITY, PERFORMANCE AND OPERATIONS, PROGNOSIS FOR ACI MONEY TRANSFER SYSTEM™ IS SPECIFICALLY DESIGNED TO PROVIDE UNPRECEDENTED INSIGHT INTO ACI MONEY TRANSFER SYSTEM™, ENSURING MAXIMUM UPTIME OF MONEY TRANSFER SYSTEM WHILE MAXIMIZING THE EFFICIENCY OF YOUR OPERATIONS.

TRADITIONAL MONITORING TOOLS

- SMALL NUMBER DISPLAYS
- LIMITED OR NO DISPLAY FLEXIBILITY
- NO BUSINESS APPLICATION VIEW WITHOUT CUSTOM CODING

ACI PAYMENT SERVICE MANAGEMENT™ POWERED BY PROGNOSIS

- HUGE DEPTH - AN INTEGRATED LOGICAL WEB OF DISPLAYS PROVIDED WITH THE PRODUCT FROM HIGH-LEVEL ENVIRONMENT OVERVIEWS TO LOW-LEVEL DETAILS
- COMPLETE FLEXIBILITY PROVIDED RELATING TO CONTENT AND DESIGN – NO PROGRAMMING REQUIRED
- EASILY BRINGS TOGETHER COMPOSITE VIEWS OF INFRASTRUCTURE AND APPLICATIONS THAT MATCH HOW YOU RUN YOUR BUSINESS

MARKET DATA: WHY THE PRODUCT IS NEEDED

Achieving this difficult outcome of perfect availability and operational efficiency requires business-specific insight into the wholesale payments environment. An intelligent monitoring system can allow organizations to deploy their workforces in the most effective manner and take advantage of extensive automation and straight-through processing without fearing the introduction of difficult to detect problems.

BUSINESS VALUE AT A GLANCE

- Provides detailed operational insight into transactions processing, queue monitoring and exception monitoring
- Provides real-time visibility into lines availability and malfunction
- Enhances infrastructure monitoring by including real-time monitoring of ACI Money Transfer System™-specific infrastructure and databases (Entia)
- Optimizes personnel productivity through the real-time monitoring of queues and queue details
- Increases operational performance through alerting on approaching deadlines and cut-offs
- Alerts on the complete Money Transfer System message library (Enguard alert library) and many additional customer-defined alerts
- Provides historical reporting and replay functionality
- Integrates with Money Transfer System not only through the JASi interface, but also via additional Money Transfer System components
- Helps you monitor service-level agreements and perform within their limits, avoiding partner and federal penalties
- Provides monitoring interoperability with Money Transfer System, ACI Proactive Risk Manager™, BASE24® and BASE24-eps®

PROGNOSIS FOR ACI MONEY TRANSFER SYSTEM™

Merging together productivity, performance and operations, Prognosis for ACI Money Transfer System™ is specifically designed to provide unprecedented insight into Money Transfer System. Prognosis for ACI Money Transfer System allows you to ensure maximum uptime of Money Transfer System while maximizing the efficiency of your operations.

ENSURES THE AVAILABILITY OF EVERY COMPONENT OF ACI MONEY TRANSFER SYSTEM™

Prognosis for ACI Money Transfer System provides out-of-the-box functionality that monitors all of the components of Money Transfer System to ensure they are operating as expected. When problems occur you can be immediately notified by email, SMS, alerts screen, etc.

DELIVERS GRAPHICAL INSIGHT IN THE MONEY TRANSFER SYSTEM QUEUES

Prognosis displays constantly updated information about the Money Transfer System queues that are important in your environment. This information is ideal for wallboards that allow the allocation of operators to the most important queues. These screens can also be customized to provide ideal views for your wire room supervisors and other stakeholders.

PROVIDES COMPLETE INSIGHT INTO PENDING PAYMENTS FOR ALERTING AND DISPLAY

The system can provide visibility into the actual payments on important queues. This can be used to generate alerts on messages that are not expected to be present on the queues they are on. This information can also be used to provide dashboards that show the upcoming work.

ALERTS ON THE COMPLETE MONEY TRANSFER SYSTEM MESSAGE LIBRARY

Out of the box, Prognosis for ACI Money Transfer System understands all of the messages that are logged by Money Transfer System and has preconfigured the most important items for alerting. Users can customize this alerting to their needs.

DESIGNED SPECIFICALLY FOR MONEY TRANSFER SYSTEM

Prognosis for ACI Money Transfer System is fully integrated with Money Transfer System. We have already done the extensive data mapping and created the proper integration points for you, so that you can just bring in the solution and begin using it. Through interaction with many Money Transfer System customers, we have designed out-of-the-box dashboards that are specific to the needs of the wholesale customer. The displays are arranged for the department- and role-specific needs of your organization. Adopting any of these screens for your specific environment does not require services — you will be able to do it yourself.

PROGNOSIS PULSE MONITOR FOR MONEY TRANSFER SYSTEM — NEW!

Designed exclusively for Money Transfer System, Pulse Monitor is a new module which delivers real-time visibility into queue and account status, ensuring your system is processing transactions as expected without delay. This secure, web-based alternative to Workflow Monitor delivers a summary of account information which can be used for the efficient management of daily settlement procedures.

Through an interactive graphical configuration interface, Pulse Monitor allows end users to create custom views of queues of interest and custom dashboards. This configuration provides up-to-the-minute insight for monitoring the flow of transactions between Money Transfer System and other payment networks, wire services and internal systems.

Pulse Monitor can be easily upgraded to the full Prognosis solution which provides expanded real-time business insight, performance and availability monitoring of Money Transfer System.

HIGHLY GRAPHICAL USER INTERFACE

Prognosis for ACI Money Transfer System utilizes a highly graphical user interface coupled with user defined alerts and notification processes. All screens are designed to facilitate the logical organization of your wholesale department, so users can look at information that is important to their work and responsibilities. Prognosis for ACI Money Transfer System begins with high-level summary screens that allow you to drill down to specific payments, transactions, alerts, lines and queues. Unlike other monitoring solutions, with Prognosis for ACI Money Transfer System you are in charge of displaying the information critical to your environment and the needs of your organization. Through the one-solution multiple-screens product, Prognosis for ACI Money Transfer System breaks silos across your organization to deliver visibility of the payments system across wire rooms, IT operations, Money Transfer System operations and key business stakeholders.

THE ACI ADVANTAGE

Prognosis for ACI Money Transfer System brings you the outstanding combination of a leading wholesale payments engine and a leading real-time payments monitoring solution. Through our constant interaction with payment customers, our pursuit of market excellence and the expertise of our system designers, we are able to bring you a single comprehensive solution that will decrease your operational costs, ensure the availability of your system, increase the effectiveness of your staff and help you manage your payments business with better efficiency.

REVOLUTIONIZES PAYMENTS

ACI Worldwide, the Universal Payments company, powers electronic payments and banking for more than 5,000 financial institutions, retailers, billers and processors around the world. ACI software processes \$13 trillion in payments and securities transactions for more than 250 of the leading global retailers, and 21 of the world's 25 largest banks. Universal Payments —  — is ACI's strategy to deliver the industry's broadest, most unified end-to-end enterprise payment solutions. Through our comprehensive suite of software products and hosted services, we deliver solutions for payments processing; card and merchant management; online banking; mobile, branch and voice banking; fraud detection; trade finance; and electronic bill presentment and payment.
