DEEP INTEGRATION

- Real-time balance updates with Ellucian and Oracle
- Proven integration with partners throughout your campus
- Reduce staff time on payments by 19%

THE FUTURE OF CAMPUS COMMERCE

For families and students, paying for college may be one of the most stressful situations they can face. Higher education institutions offering newer, faster and more convenient ways to pay not only raise student satisfaction 24% while improving security, they can also reduce staff time spent on payments.¹ ACI[®], a partner of Ellucian and Oracle, offers deep integration into your existing systems to create a single, simple platform to accommodate your student body's favorite ways to pay and all financial communication. Our comprehensive UP[®] Bill Payment[™] solutions will bring the future of payments to your campus.

THE MARKET CHALLENGE

Whether buying books online, repaying a friend or paying tuition, today's students and parents expect their payments to be simple, fast and secure. Outdated payment experiences cause everything from dissatisfaction to a data breach. They also increase staff time spent on chasing collections, fielding phone calls and reconciling payments.

These challenges stem from higher education institutions employing outdated payment platforms that are either too slow, too complex or unable to accommodate students' favorite ways to pay. In addition, these platforms fail to address the security concerns presented by today's criminals.

THE ACI SOLUTION

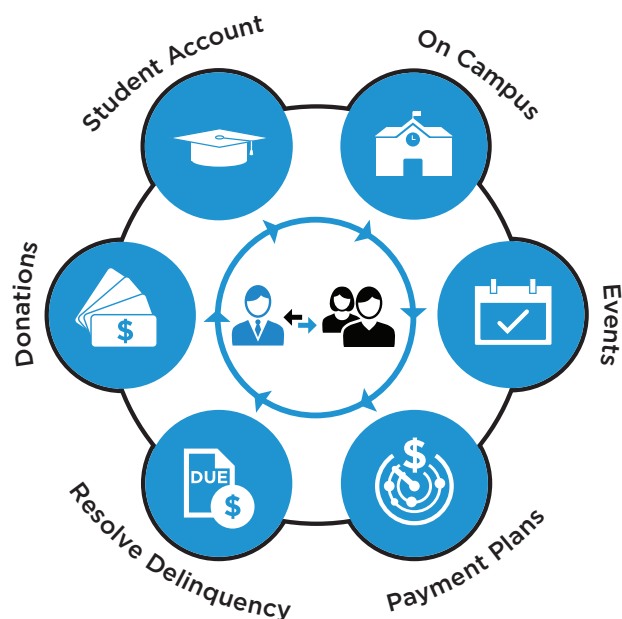

RAISE STUDENT SATISFACTION 24%

- Students and families benefit from a comprehensive, simple payments experience
- Connect to a new faster payments network launching in the U.S.
- Offer an easy way to pay the student account, campus payments, event tickets, payment plans, delinquencies, alumni donations and more
