

ACI Connetic®: Redefining payments hubs

About ACI Worldwide:

ACI Worldwide, an original innovator in global payments technology, delivers transformative software solutions that power intelligent payments orchestration in real time so banks, billers, and merchants can drive growth, while continuously modernizing their payment infrastructures, simply and securely. With 50 years of trusted payments expertise, we combine our global footprint with a local presence to offer enhanced payment experiences to stay ahead of constantly changing payment challenges and opportunities.

What we offer

ACI Connetic® is a modern, cloud-native payments platform designed for banks seeking to unify their card and account-to-account payment processing.

Supporting issuing, acquiring, ATM, and account-to-account payments, ACI Connetic offers a consolidated architecture that reduces complexity, enhances resilience, and enables innovation. With embedded advanced fraud prevention and digital identity capabilities, the platform enables institutions to grow revenue, modernize legacy systems, and compete more effectively in today's digital-first world.

ACI Connetic provides the agility and scalability financial institutions need to adapt to changing market demands while delivering the reliability and performance their customers expect.

What our customers are saying

"With their comprehensive platform, best-in-class fraud and risk management capabilities, and strong market presence, ACI Worldwide is well-positioned to help financial institutions navigate the complexities of modern payment processing."

— Erika Bauman, Director of
Commercial Banking & Payments
at Datos Insights

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
