Microsoft Partner | Gold Data Analytics / Gold Data Platform / Gold Cloud Platform / Gold Application Integration

Real-Time Payments Cloud, the FedNow® Service and TCH Payments

About ACI Worldwide:

ACI Worldwide, an original innovator in global payments technology, delivers transformative software solutions that power intelligent payments orchestration in real time so banks, billers, and merchants can drive growth, while continuously modernizing their payment infrastructures, simply and securely. With 50 years of trusted payments expertise, we combine our global footprint with a local presence to offer enhanced payment experiences to stay ahead of constantly changing payment challenges and opportunities.

What we offer :

ACI® Real Time Payments Cloud™ (RTPC) offers a cutting-edge solution for connecting with US instant payment schemes like the FedNow Service and TCH's RTP. Our platform ensures rapid onboarding, aligning with each financial institution's unique needs and pace.

Our cloud-native offering includes robust security with built-in fraud scoring technology. Additionally, RTPC provides advanced reporting and analytics using ISO 20022 messages, offering deep insights into payments data. Customers also benefit from services like liquidity management and API integration options, including core banking and fraud.

ACI supports the latest versions of TCH's RTP and the FedNow Service, managing all mandates, upgrades, and platform compliance. Our innovative roadmap ensures that financial institutions have a future-proof partner, continually evolving with new features and services.

What our customers are saying

"Through our partnership with ACI and their real-time payments cloud offering, we were able to connect to both the FedNow Service and RTP Network, which is a game changer for the credit union marketplace. We have been able to expand the capabilities for our existing member base and have also created a competitive advantage for our industry."

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a $1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
