

Paze: the new US bank-backed payments option merchants want

More PSPs are eyeing Paze's checkout approach that prioritizes value and simplicity

Who is paze?

Paze is a fresh way to pay online, backed by seven major US banks and powered by ACI Worldwide. Shoppers can check out quickly using the cards already on file with their bank. It's simple for PSPs to offer to US merchants, with no changes to pricing—just a smoother experience for everyone.

Why should PSPs care?

The US merchant advantage

- A new payments option that doesn't increase costs
- No new consumer accounts, credit cards, or mobile app downloads needed
- Bank-funded incentives that actively drive adoption and usage
- Built to balance consumer experience, merchant economics, and ecosystem growth

The consumer advantage

- Payment using existing bank-issued cards
- Faster checkout with fewer steps
- Enhanced trust: added security through tokenization
- Cashback and promotional offers funded by participating banks

How do you add Paze to your system?

Simple enablement. Merchant-friendly rollout.

- 1 Enable Paze through the ACI® Payments Orchestration Platform™
- 2 Offer Paze as an opt-in checkout option for merchants
- 3 Activate upcoming bank-funded consumer incentive campaigns
