Speedpay ONE™

Never miss a payment™

Protect revenue, improve customer satisfaction, and simplify payment operations with a resilient bill payment platform built to keep payments flowing.

Overview

Speedpay ONE helps billers ensure payments are always available, secure, and easy to complete. Designed for organizations where payments performance directly impacts revenue and customer trust, Speedpay ONE combines industry-leading resiliency, broad payment choice, advanced fraud prevention, and operational efficiency in a single platform.

By removing downtime, payments friction, and unnecessary complexity, Speedpay ONE enables organizations to increase payment completion rates, reduce costs, improve customer satisfaction, and minimize payments risk. More than 3,000 billers trust ACI to support critical payment experiences that drive revenue continuity and long-term customer loyalty.

Unique selling points

1. **Ensure payments continuity with multiple tiers of resiliency** so customers can make payments whenever they need to, protecting revenue and cash flow
2. **Maximize successful payment completion through intelligent routing and redundant processing** that help reduce failed transactions and payment interruptions
3. **Give consumers the freedom to pay how, when, and where they choose** with broad payment methods and channels that drive adoption and satisfaction
4. **Lower operational costs and complexity** with flexible deployment options and a scalable platform designed for growth
5. **Reduce fraud and payments risk** through advanced protection capabilities, including biometrics, real-time verification, and AI-driven fraud detection
6. **Leverage proven expertise and scale** backed by more than 50 years of payments experience and over 3,000 trusted biller relationships

How it works

Create reliable payment experiences

Speedpay ONE delivers resilient payments infrastructure with multiple layers of availability and redundant processing capabilities designed to keep payment services operational and accessible.

Optimize payments performance

Advanced payment routing and optimization capabilities help increase successful payment completion, reduce exceptions, and improve overall operational efficiency.

Give customers more ways to pay

Consumers can choose from a broad range of payment methods and channels, including ACH, cards, text payments, and emerging payment types, creating a convenient and flexible payments experience.

Protect every transaction

Integrated fraud prevention and endpoint protection capabilities help identify suspicious activity, reduce losses, and protect both organizations and consumers.

Scale with confidence

Whether deployed as an embedded payments experience or fully hosted solution, Speedpay ONE supports growing payment volumes without increasing operational complexity

Stats

Statistics	**3,000+** billers	**50+** years	**Multiple** tiers of resiliency	**Supports** ACH, major cards, and APMs
Business values	Demonstrates proven market adoption and scale	Provides confidence in operational and payments industry knowledge	Helps ensure payments availability and revenue continuity	Improves customer choice and drives payment completion
